

## LEVIS STORES

### Chain Retail Shops

#### Challenges

The owner wanted to ensure security on the grounds more efficiently than with an expensive security guard service and also wanted to monitor his shops when he was traveling. He wanted to view all his shops together on 1 screen and also monitor the traffic in his shops.

#### Solution

Livedarshan's video surveillance software - sends message on mobile on detecting motion.

- Pan ,Tilt, Zoom Cameras.
- Dome Covers

#### Advantages

-Via the web, owner can view live or recorded images, anytime from anywhere.

-Savings of thousands of rupees per month have been realized while the protection of goods and property has improved significantly.

-They use the Livedarshan's motion detection facility, which sends a message to the owner if there is any movement in the shop after closing hours.
